EDUCATION

Intermediate in Computer Science
Azadi Army Public School & College

07/2021 - 06/2023   *Sargodha Cantt*

Courses
- Computer Science
- Mathematics
- Physics

Matriculation
Azadi Army Public School & College

03/2019 - 05/2021   *Sargodha Cantt*

Courses
- Computer Science
- Mathematics
- Physics
- Chemistry

WORK EXPERIENCE

Frontend Developer
The Zoq

11/2022 - Present   *Sargodha, Pakistan*

Achievements/Tasks
- Implemented responsive design principles to ensure optimal user experiences across various devices.
- Collaborated with an experienced team to develop and maintain frontend components for websites.
- Utilized React to create dynamic and interactive user interfaces.

SKILLS

HTML   CSS   SCSS   JavaScript   React

Next.js   MongoDB   TypeScript   Tailwind CSS

Node.js   Zustand   Framer Motion   Express.js

Git

PROJECTS

Share it (https://share-it-ir.vercel.app)
- ShareIt is a secure file-sharing web app, allowing users to effortlessly upload files to the cloud, set passwords, and share via links or email.
- This app is made using Next.js, a powerful React framework, for a high-performance and efficient web development experience.
- I used Firebase for robust file and data storage, seamlessly integrated with Clerk for secure and streamlined authentication protocols in the implementation

Webistech (https://webistech.com)
- Developed a user-friendly online learning platform for a web development institution. Implemented secure user registration and login functionalities, enabling students to enroll in specific courses tailored for their learning journey.
- I used React for the frontend, utilizing the power of Node.js with Express.js for the backend. MongoDB served as the database, creating a seamless and efficient tech stack for the development of the project.

CERTIFICATES

MERN Stack Developer Training | Webistech (03/2023 - 05/2023)
Gained hands-on experience in full-stack web development, emphasizing modern practices and seamless integration of frontend and backend components.
